DETAILED ACTION

Allowable Subject Matter

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: Essentially, the amendments to the claims have overcome the prior art, and arguments presented by applicant in the Remarks accompanying the amendment are persuasive. Applicant is correct that the combination of Iwamoto and Schneider would not have been obvious, as these two references are directed to different structures having different purposes. Also, these references do not read on the claims as amended, which recite a molded polymer comprising a suppression component as recited which is impregnated into a closed cell of the molded polymer. The prior art does not disclose or suggest a device or method having all of the limitations of claims 1 and 9. As a result, these claims, and their dependent claims, are allowed.

Also, the amendment to claim 6 has overcome the previous rejection under 35 USC 112, in that it enables one of ordinary skill in the art to understand the amount of the x-ray component

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
